

DELIVER  
**WOW**.CO

*the next-generation delivery service for e-commerce*

# Your customer journey

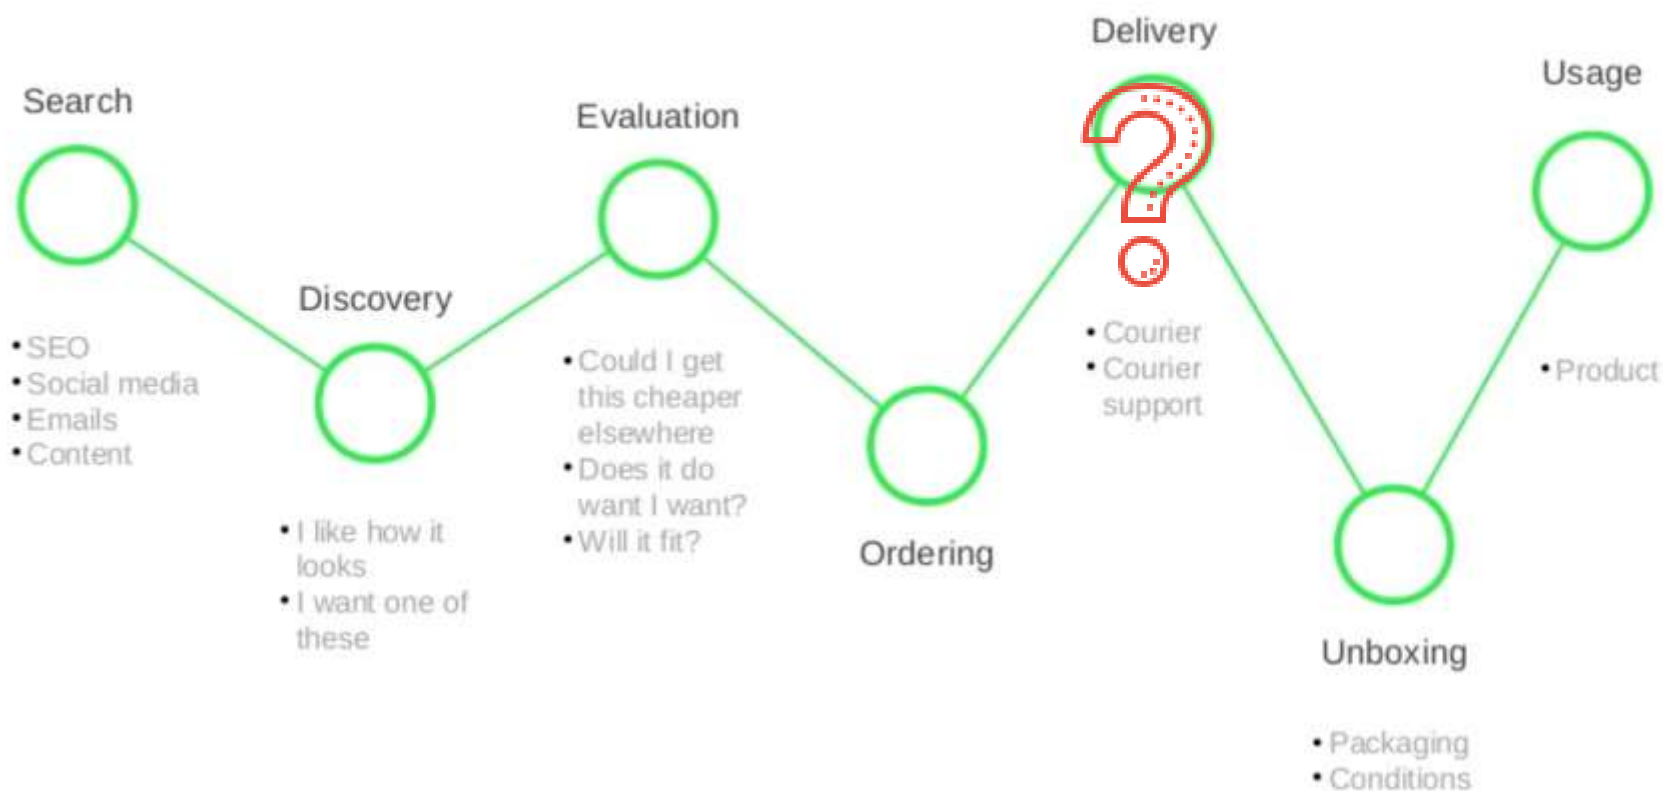

## A typical E-commerce Customer Journey

You can manage, almost all of them, but there is a missing point

## A typical E-commerce Customer Journey

## Fact #2

Your website can do an amazing job, with effective campaigns, great images, high conversion rates, and a great customer experience

But if the product isn't delivered in a timely manner and in perfect condition the whole effort goes down the drain

# Today's courier.. doesn't work

Hardcover map

Handwritten address notes

# How courier should be

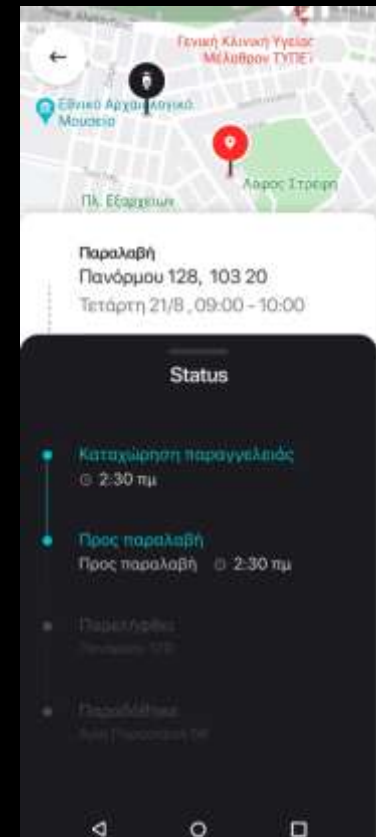

Instant customer care  
through chat

Real time tracking

Track & Trace

## Why to add DeliverWOW as an extra shipping method?

Customers can choose their own shipping options based on their needs.

It doesn't need to be free!

Some people prefer cheap or free shipping even if shipments are delayed.

Others, place a priority on fast deliveries and product turnover.

Offering customers options lets them decide.

You'll have a better chance of satisfying more people

A big part of e-commerce is convenience

People love it!

If you are a business owner,  
you know how difficult is to earn an excellent review
